

## D205M / D206M Spacer Kit

Spacer Kit for D205M / D206M crimpers for use with extra long elbow fi ttings. This spacer plate adds exactly 1" between the Pusher and DBL TOP Cone to allow for extra fitting clearance. (P/N: D200-1-SPACER-KIT)

## **NOTES:**

- · Install Pusher Spacer on top of DBL TOP Cone, make sure the roll pins are pointing downward.
- Install Stop Switch Spacer on top of the existing top switch, make sure the Stop Switch is pressed firmly against the switch bracket.

Roll Pins Pointing Downward
