

CUSTOM CRIMP™

Innovating SMART Hose Assembly Solutions Since 1979

INDUSTRIAL “PLC” SERIES Test Benches

Intuitive Screens: Lead the operator through the set up and monitoring of the test procedure.

Large capacity cabinet to make large hose loading easy

Removable Side Panel

Available Extension Trough

Available 90 PSI Booster Pump

ENGINEERED TO ACCOMMODATE YOUR NEEDS

- Automatic pressure cut off when door is opened.
- Test area is at a convenient working height.
- Full front opening allows hose to be loaded on a skid.
- 6" Touch screen and user friendly navigation.
- Print a detailed report of the tested assembly.
- Built-in USB port to download log files and save into a USB flash drive.
- Multi-port manifold outlet allows multiple hose assemblies to be tested at the same time.
- Available extension trough in 10 foot sections.
- Removable side panel permits the testing of longer hose assemblies with the attachment of an optional trough.
- High capacity pump which allows industrial hoses to be pressure tested up to 5,000 psi.
- Standard 90 psi booster pump for faster filling of hose.

DURABLE + RELIABLE DESIGN = PROFITABILITY

- Powder coat finish for durability.
- 1/2" Polycarbonate safety window.
- Interior coated with polyurethane bed liner material.
- Built in work light for good visibility during testing.
